Anoxic arrest, retroperfusion of heart with solution of glucose, insulin, and potassium during (Lolley et al.), 364
cardiac arrest, mitochondrial enzymatic alterations produced in myocardium by (Gomes et al.), 649
Aorta, ascending, creation of new coronary ostia in: technical considerations (Thomas and Bichlmeier), 291
coarctation of, inaccessible, technique for management of (Siderys et al.), 568
delayed hemorrhage after stab wounds of (Manwaring), 788
and inferior vena cava, unidirectional balloon pumping in: effects on canine hemodynamics in cardiogenic shock (Bregman et al.), 553
and left coronary artery, significance of saphenous vein bypass between: anomalous origin of left coronary artery from pulmonary artery (Endo et al.), 896
thoracic, surgical management of acute injury to (Reul et al.), 272
Aortic arch, surgical repair of chronic post-traumatic aneurysm of (Midgley and Behrendt), 229
unusual injury to: case report (Tector et al.), 547
intra-, balloon counterpulsation, iliac artery cannulation for (Lamberti et al.), 976
leaflets, human, in stressed and relaxed states, scanning and light microscopy of (Clark and Finke), 792
stenosis, supravalvular, atresia of proximal left coronary artery associated with: surgical treatment (Allen et al.), 266
sub-, stenosis, successful surgical management of double mitral valve with (Mercer and Tubbs), 440
valve endocarditis and aortic root abscesses by insertion of prosthetic valve in ascending aorta and placement of bypass grafts to coronary arteries, successful treatment of (Danielson et al.), 443
replacement with preserved aortic valve homografts (Wallace et al.), 44
with rupture of ventricular septum, acute bacterial endocarditis of (Singh et al.), 718
valvular stenosis, experimental production of: short-term and long-term studies in dogs (Copeland et al.), 371
valvuloplasty for stenosis in adults: late results (Rees et al.), 390
Aorto–coronary artery vein grafts 2 weeks, 1 year, and 3 years after operation, serial angiographic evaluation in 60 consecutive patients with (Grondin et al.), 1
saphenous vein graft, blunt chest trauma associated with thrombosis of (Lajos et al.), 941
-left pulmonary artery shunt, side-to-end, corrective operation for tetralogy of Fallot in presence of: unusual case and suggestion concerning management (Shumacker), 770
-saphenous vein graft orifice, radiopaque suture to identify (Elias and Burman), 282
Arch, aortic, surgical repair of chronic post-traumatic aneurysm of (Midgley and Behrendt), 229
unusual injury to: case report (Tector et al.), 547
Arrest, anoxic, retroperfusion of heart with solution of glucose, insulin, and potassium during (Lolley et al.), 364
cardiac, anoxic, mitochondrial enzymatic alterations produced in myocardium by (Gomes et al.), 649
ischemic, by coronary perfusion with cold Ringer's lactate solution, protection from (Tyers et al.), 411
Arterial dissection, coronary, isolated: complication of cardiac operations (Bulkley and Roberts), 148
hypertension, pulmonary, after repair of tetralogy of Fallot (Kinsley et al.), 110
Arterialization of coronary vein, reversal of myocardial ischemia by (Bhayana et al.), 125
Arteriographic findings in mediastinal chemodectoma (D'Altorio et al.), 963
Arteriosus communis, truncus, surgical anatomy of (Bharati et al.), 501
ductus, patent, management of premature infants with (Murphy et al.), 221
Artery(ies) anastomosis, superior vena cava–pulmonary (Willman et al.), 380
anatomy, coronary, in transposition of great vessels in relation to anatomic surgical correction (Balderman et al.), 208
cannulation, iliac, for intra-aortic balloon counterpulsation (Lamberti et al.), 976
coronary, descending, anterior, left, diastolic intramyocardial tissue pressure before, during, and after temporary occlusion of (Peyster and Stuckey), 343

Artery(ies), coronary—Cont'd
left, anomalous, alternative treatment of: left ventricular aneurysmectomy in 4-month-old infant (Turina et al.), 915
proximal, associated with supravalvular aortic stenosis, atresia of: surgical treatment (Allen et al.), 266
from pulmonary artery, anomalous origin of: significance of saphenous vein bypass between aorta and left coronary artery (Endo et al.), 896
and multiple valve surgery, technical consideration in (Okies et al.), 762
fistula, tracheal–innominate, after repair of tracheal stenosis: problem and prevention (Arbulu and Thoms), 936
after tracheal reconstruction: case of successful repair (Revilla et al.), 629
great, transposition of, in first year of life, corrective surgery of: results in 63 infants (Stark et al.), 673
reoperation for dysfunctional intra-atrial baffle (Grehl and Shumway), 863
ventricular septal defect, and pulmonary stenosis, false aneurysm of right ventricle after Rastelli operation for (Jacobs et al.), 543
homograft, large, with semilunar valve for correction of tetralogy of Fallot, use of: follow-up study (Kawashima et al.), 685
innominate, after blunt chest trauma, avulsion of: new application for old technique (Franz et al.), 478
occlusion, coronary, acute, reduction in myocardial ischemia by left ventricular bypass after (DeLaria et al.), 826
pulmonary, and right ventricular outflow with valve made from autologous vein mounted on Dacron tube, reconstruction of: experimental study (Castillo-Olivares et al.), 419
–right ventricular fistula, atretic right coronary, and reconstruction of two-coronary system (Bandow et al.), 694
shunt, side-to-end aorto–left pulmonary, corrective operation for tetralogy of Fallot in presence of: unusual case and suggestion concerning management (Shumacker), 770
surgery, coronary, in patients receiving propranolol, results of (Caralps et al.), 526
Artery(ies)—Cont'd
system, coronary, heart support for coronary bypass surgery involving (Janke), 883
vein grafts, aorto–coronary, 2 weeks, 1 year, and 3 years after operation, serial angiographic evaluation in 60 consecutive patients with (Grondin et al.), 1
Artificial heart, metabolic monitoring and control of (Stanley and Kolff), 434
Ascending aorta, creation of new coronary ostia in: technical considerations (Thomas and Bichlmeier), 291
and placement of bypass grafts to coronary arteries, successful treatment of aortic valve endocarditis and aortic root abscesses by insertion of prosthetic valve in (Danielson et al.), 443
Assist, cardiac, with intraventricular balloon (Satava and McGoon), 780
Assistance, circulatory, prolonged, in awake neonatal lambs (Melrose and Singh), 584
Atresia of proximal left coronary artery associated with supravalvular aortic stenosis: surgical treatment (Allen et al.), 266
tricuspid: a re-evaluation and classification (Tandon and Edwards), 530
remote delayed ligation of vena cava in palliative surgery of: modification of Glenn procedure (Hiebert et al.), 407
Atretic right coronary artery–right ventricular fistula and reconstruction of two-coronary system (Bandow et al.), 694
Atrial approach for repair of ventricular septal defect in corrected transposition (Skow and Mulder), 426
intra-, baffle, dysfunctional, reoperation for: transposition of great arteries (Grehl and Shumway), 863
septum with anomalous pulmonary and systemic venous drainage, anomalous position of: correction including ligation of persistent left superior vena cava (Utley et al.), 730
Atrioventricular canal, complete, successful repair of common ventricle associated with (Danielson et al.), 152
(ostium primum), common, long-term follow-up after surgical correction of partial form of (Lévy et al.), 353
conduction system, specialized, in patients with congenital heart disease, electrophysiological delineation of: I. Delineation of His bundle proximal to membranous septum (Krongrad et al.), 875

Autogenous saphenous vein bypass grafts, hydraulic and morphologic study of fibrous intimal hyperplasia in (Kennedy et al.), 805

Autotransplantation, lung, in dogs, bronchial mucus after (Morinari et al.), 484

Autotransplanted lung after removal of intact contralateral lung, possibility of prolonged survival of animals with (Rabinovich et al.), 744

Avulsion of innominate artery after blunt chest trauma: new application for old technique (Franz et al.), 478

Awake neonatal lambs, prolonged circulatory assistance in (Melrose and Singh), 584

B

Bacterial endocarditis, acute, of aortic valve with rupture of ventricular septum (Singh et al.), 718

Baffle, intra-atrial, dysfunctional, reoperation for: transposition of great arteries (Grehl and Shumway), 863

Ball from mitral valve prosthesis, late death due to escape of (Keen), 202

-valve(s) prostheses, Starr-Edwards, for acquired valvular heart disease, intraoperative hemodynamics after inserion of (Fletcher et al.), 285

prosthetic, physiological approach to high-frequency testing of (Almond et al.), 839

Balloon counterpulsation, intra-aortic, iliac artery cannulation for (Lamberti et al.), 976

intraventricular, cardiac assist with (Satava and McGoon), 780

pumping, unidirectional, in inferior vena cava and aorta: effects on canine hemodynamics in cardiogenic shock (Bregman et al.), 553

Beall mitral prosthesis, single valve replacement with (Rossi et al.), 83

Benign and malignant criteria, analysis of: thymoma (Jain and Frable), 310

Bilateral pulmonary vein stenosis, diagnosis and surgical treatment of (Park et al.), 755

Blood cells, passenger, as adjunct in decreasing rejection in canine heterotopic heart transplants, clearance of (Gonzalez-Lavin et al.), 466

filters, platelet aggregate emboli produced in patients during cardiopulmonary bypass with membrane and bubble oxygenators and (Dutton et al.), 258

Blood—Cont'd

oxygenator, disposable, Harvey H200, new, clinical evaluation of (Page and Haller), 213

Bronchial mucus after lung autotransplantation in dogs (Morinari et al.), 484

Bronchogenic cyst and intrapericardial teratoma: review of literature and report of successful surgery in infant with intrapericardial teratoma (Deenadayalu et al.), 945

Bronchoscope, fiberoptic, thoracoscopy with: simple method in diagnosing pleuropulmonary diseases (Senno et al.), 606

Bronchus, mucus gland adenoma of (Allen et al.), 966

Bundle, His, proximal to membranous septum, delineation of: I. Electrophysiological delineation of specialized atrioventricular conduction system in patients with congenital heart disease (Krongrad et al.), 875

Bypass, cardiopulmonary, albumin and water fluxes during (Beattie et al.), 926

with membrane and bubble oxygenators and blood filters, platelet aggregate emboli produced in patients during (Dutton et al.), 258

transient defects in phagocytic functions during (Silva et al.), 175

grafting, coronary, in 376 consecutive patients, with three operative deaths (Hutchinson et al.), 7

grafts to coronary arteries, successful treatment of aortic valve endocarditis and aortic root abscesses by insertion of prosthetic valve in ascending aorta and placement of (Danielson et al.), 443

vein, saphenous, autogenous, hydraulic and morphologic study of fibrous intimal hyperplasia in (Kennedy et al.), 805

surgery, coronary, involving circumflex artery system, heart support for (Janke), 883

technique, heart, left, in vivo evaluation of pulsatile ventricle pump by perfusion via (Bivona et al.), 571

vein, saphenous, between aorta and left coronary artery, significance of: anomalous origin of left coronary artery from pulmonary artery (Endo et al.), 896

ventricular, left, after acute coronary artery occlusion, reduction in myocardial ischemia by (DeLaria et al.), 826

C

Canal, atrioventricular, complete, successful repair of common ventricle associated with (Danielson et al.), 152

(ostium primum), atrioventricular, common, long-term follow-up after surgical correction of partial form of (Lévy et al.), 353

Cancer of lung in young men (Kyriakos and Webber), 634

Candida endocarditis with femoral emboli: treatment with surgery and 5-fluorocytosine (Montague and Sugg), 322

Cannulation, artery, iliac, for intra-aortic balloon counterpulsation (Lamberti, et al.), 976

Carcinoma, esophageal, advanced, by permanent intubation, palliation of (Haiderer et al.), 491

Cardiac arrest, anoxic, mitochondrial enzymatic alterations produced in myocardium by (Gomes et al.), 649

ischemic, by coronary perfusion with cold Ringer's lactate solution, protection from (Tyers et al.), 411

assist with intraventricular balloon (Satava and McGoon), 780

operations, complication of: isolated coronary arterial dissection (Bulkley and Roberts), 148

pacemaker electrodes, clinical, presently used, comparative studies of "state of art" and (Tyers et al.), 849

surgery, febrile responses associated with: relationships to postpericardiotomy syndrome and to altered host immunologic reactivity (Roses et al.), 251

hyperalimentation in: review of 64 patients (Abel et al.), 294

in nonteaching medical center (Sacks), 599

transplants, heterotopic, canine, without immunosuppression, improved survival in (O'Connell et al.), 459

Cardiogenic shock, effects on canine hemodynamics in: unidirectional balloon pumping in inferior vena cava and aorta (Bregman et al.), 553

Cardiopulmonary bypass, albumin and water fluxes during (Beattie et al.), 926

with membrane and bubble oxygenators and blood filters, platelet aggregate emboli produced in patients during (Dutton et al.), 258

transient defects in phagocytic functions during (Silva et al.), 175

Cells, blood, passenger, as adjunct in decreasing rejection in canine heterotopic heart transplants, clearance of (Gonzalez-Lavin et al.), 466

Cerebral hypotension and shock lung syndrome (Kusajima et al.), 969

Cervical tracheal resection, use of stainless steel wire coil prosthesis in treatment of anastomotic dehiscence after (Pagliero and Shepherd), 932

Chemistry, physical, of healing, and electron microscopy in prosthetic heart valves, skirts, and struts: modification by electrochemically clean physiologic surfaces (Sawyer et al.), 24

Chemodectoma, mediastinal, arteriographic findings in (D'Altorio et al.), 963

Chest trauma, blunt, associated with thrombosis of aorto-coronary saphenous vein graft (Lajos et al.), 941

avulsion of innominate artery after: new application for old technique (Franz et al.), 478

rheumatic, acute,valve replacement in (Strauss et al.), 659
valvular, acquired, intraoperative hemodynamics after insertion of Starr-Edwards ball-valve prostheses for (Fletcher et al.), 285
with solution of glucose, insulin, and potassium during anoxic arrest, retroperfusion of (Lolley et al.), 364
support for coronary bypass surgery involving circumflex artery system (Janke), 883
surgery with membrane oxygenator in infants (Sugg et al.), 593
transplants, heterotopic, canine, clearance of passenger blood cells as adjunct in decreasing rejection in (Gonzalez-Lavin et al.), 466
valves, skirts, and struts, prosthetic, electron microscopy and physical chemistry of healing in: modification by electrochemically clean physiologic surfaces (Sawyer et al.), 24
Hemodynamic and clinical assessment, postoperative, late, of early cloth-covered Starr-Edwards mitral valve prosthesis (Pietras et al.), 450
and ultrastructural evaluation of experimental myocardial infarctectomy (Limet et al.), 243
Hemodynamics, canine, in cardiogenic shock, effects on: unidirectional balloon pumping in inferior vena cava and aorta (Bregman et al.), 553

Hemodynamics—Cont'd
intraoperative, after insertion of Starr-Edwards ball-valve prostheses for acquired valvular heart disease (Fletcher et al.), 285
and microcirculation, pulmonary, in hemorrhagic shock, role of serotonin and serotonin antagonist on (Kusajima et al.), 908
Hemofiltration, ultrapore, during extracorporeal circulation (Gervin et al.), 237
Hemolysis, chronic, produced by cloth-covered valves: effect of design and valve position (Lefemine et al.), 857
Hemorrhage, delayed, after stab wounds of aorta (Manwaring), 788
Hemorrhagic shock, role of serotonin and serotonin antagonist on pulmonary hemodynamics and microcirculation in (Kusajima et al.), 908
Heparin rebound: studies in patients and volunteers (Ellison et al.), 723
therapy in open-heart surgery, control of (Jaberi et al.), 133
Heterograft, porcine, glutaraldehyde-preserved, mitral valve replacement with: clinical, hemodynamic, and pathological correlations (Horowitz et al.), 885
Heterotopic cardiac transplants, canine, without immunosuppression, improved survival in (O'Connell et al.), 459
heart transplants, canine, clearance of passenger blood cells as adjunct in decreasing rejection in (Gonzalez-Lavin et al.), 466
High-frequency testing of prosthetic ball valves, physiological approach to (Almond et al.), 839
His bundle proximal to membranous septum, delineation of: I. Electrophysiological delineation of specialized atrioventricular conduction system in patients with congenital heart disease (Krongrad et al.), 875
Homograft(s), artery, large, with semilunar valve for correction of tetralogy of Fallot, use of: follow-up study (Kawashima et al.), 685
valve, aortic, preserved, aortic valve replacement with (Wallace et al.), 44
Hydraulic and morphologic study of fibrous intimal hyperplasia in autogenous saphenous vein bypass grafts (Kennedy et al.), 805
Hyperalimentation in cardiac surgery: review of 64 patients (Abel et al.), 294
Hyperplasia, intimal, fibrous, in autogenous saphenous vein bypass grafts, hydraulic and morphologic study of (Kennedy et al.), 805
Hypertension, arterial, pulmonary, after repair of tetralogy of Fallot (Kinsley et al.), 110
Hypotension, cerebral, and shock lung syndrome (Kusajima et al.), 969

I

Iliac artery cannulation for intra-aortic balloon counterpulsation (Lamberti et al.), 976
Immunologic reactivity, host, altered, relationships to postpericardiotomy syndrome and to: febrile responses associated with cardiac surgery (Roses et al.), 251
Immunosuppression, improved survival in canine heterotopic cardiac transplants without (O'Connell et al.), 459
Immunosuppressive regimens on orthotopic heart allografts, comparison of efficacy of (Kondo et al.), 612
Implantable temporary pacemaker electrode, improved (Aris et al.), 708
Infant(s), 4-month-old, left ventricular aneurysmectomy in: alternative method of treatment of anomalous left coronary artery (Turina et al.), 915
heart surgery with membrane oxygenator in (Sugg et al.), 593
with intrapericardial teratoma, review of literature and report of successful surgery in: intrapericardial teratoma and bronchogenic cyst (Deenadayalu et al.), 945
with Marfan's syndrome, mitral valve replacement for regurgitation in (Pifarré et al.), 233
premature, with patent ductus arteriosus, management of (Murphy et al.), 221
Infarctectomy, myocardial, experimental, ultrastructural and hemodynamic evaluation of (Limet et al.), 243
Infarction, myocardial, acute, late development of intractable ventricular tachycardia after (Sehapayak et al.), 818
management of papillary muscle dysfunction after (Lamberti et al.), 349
Infection, gram-negative, after open-heart surgery, sources of (Rosendorf et al.), 195
Inferior and superior venae cavae, use of Gortex grafts for replacement of (Fujiwara et al.), 774

Inferior—Cont'd
vena cava and aorta, unidirectional balloon pumping in: effects on canine hemodynamics in cardiogenic shock (Bregman et al.), 553
that produced tricuspid valvular obstruction, resection of leiomyoma of (Mandelbaum et al.), 561
Infundibular pulmonic stenosis, experimental: effects of positive inotropic agents (Jones et al.), 699
Injury, acute, to thoracic aorta, surgical management of (Reul et al.), 272
unusual, to aortic arch: case report (Tector et al.), 547
Innominate artery after blunt chest trauma, avulsion of: new application for old technique (Franz et al.), 478
fistula, tracheal–, after repair of tracheal stenosis: problem and prevention (Arbulu and Thoms), 936
after tracheal reconstruction: case of successful repair (Revilla et al.), 629
Inotropic agents, positive, effects of: experimental infundibular pulmonic stenosis (Jones et al.), 699
Insulin, glucose, and potassium during anoxic arrest, retroperfusion of heart with solution of (Lolley et al.), 364
plasma, and glucose after open-heart surgery, levels of (Hill et al.), 712
Intimal hyperplasia, fibrous, in autogenous saphenous vein bypass grafts, hydraulic and morphologic study of (Kennedy et al.), 805
Intra-aortic balloon counterpulsation, iliac artery cannulation for (Lamberti et al.), 976
-atrial baffle, dysfunctional, reoperation for: transposition of great arteries (Grehl and Shumway), 863
Intramyocardial tissue pressure, diastolic, before, during, and after temporary occlusion of left anterior descending coronary artery (Peyster and Stuckey), 343
Intrapericardial teratoma and bronchogenic cyst: review of literature and report of successful surgery in infant with intrapericardial teratoma (Deenadayalu et al.), 945
Intrathoracic meningocele, unilateral, double: report of case (Blewett and Szypulski), 481
Intraventricular balloon, cardiac assist with (Satava and McGoon), 780
Intubation, permanent, palliation of advanced esophageal carcinoma by (Haiderer et al.), 491
Ischemia, myocardial, by arterialization of coronary vein, reversal of (Bhayana et al.), 125
by left ventricular bypass after acute coronary artery occlusion, reduction in (DeLaria et al.), 826
in primates, surface pH changes during and after (McNamara et al.), 191
Ischemic cardiac arrest by coronary perfusion with cold Ringer's lactate solution, protection from (Tyers et al.), 411

K

^{43}K into peripheral vein, surgical revascularization of myocardium demonstrated by injection of (Botti and MacIntyre), 682

L

Leaflets, aortic, human, in stressed and relaxed states, scanning and light microscopy of (Clark and Finke), 792
Leiomyoma of inferior vena cava that produced tricuspid valvular obstruction, resection of (Mandelbaum et al.), 561
Libman-Sacks endocarditis, mitral valve replacement for mitral regurgitation due to: report of case (Myerowitz et al.), 869
Ligation, delayed, remote, of vena cava in palliative surgery of tricuspid atresia: modification of Glenn procedure (Heibert et al.), 407
Light and scanning microscopy of human aortic leaflets in stressed and relaxed states (Clark and Finke), 792
Lung autotransplantation in dogs, bronchial mucus after (Morinari et al.), 484
autotransplanted, after removal of intact contralateral lung, possibility of prolonged survival of animals with (Rabinovich et al.), 744
syndrome, shock, and cerebral hypotension (Kusajima et al.), 969
in young men, cancer of (Kyriakos and Webber), 634

M

Malfunction, mechanical, sudden, of Hammersmith mitral valve prostheses due to wear of polypropylene (Shaw et al.), 579

Malignant and benign criteria, analysis of: thymoma (Jain and Frable), 310
Management of inaccessible coarctation of aorta, technique for (Siderys et al.), 568
Marfan's syndrome, mitral valve replacement for regurgitation in infant with (Pifarré et al.), 233
Mediastinal chemodectoma, arteriographic findings in (D'Altorio et al.), 963
Medical center, nonteaching, cardiac surgery in (Sacks), 599
Medicine in Red China: politically dominated blend of ancient and contemporary arts (Effler), 167
Membrane oxygenator in infants, heart surgery with (Sugg et al.), 593
Men, young, cancer of lung in (Kyriakos and Webber), 634
Meningocele, intrathoracic, unilateral, double: report of case (Blewett and Szypulski), 481
Metabolic monitoring and control of artificial heart (Stanley and Kolff), 434
Microcirculation and hemodynamics, pulmonary, in hemorrhagic shock, role of serotonin and serotonin antagonist on (Kusajima et al.), 908
Microscopy, electron, and physical chemistry of healing in prosthetic heart valves, skirts, and struts: modification by electrochemically clean physiologic surfaces (Sawyer et al.), 24
scanning and light, of human aortic leaflets in stressed and relaxed states (Clark and Finke), 792
Mitochondrial enzymatic alterations produced in myocardium by anoxic cardiac arrest (Gomes et al.), 649
Mitral commissurotomy, closed, on cannulated pump stand-by through sternal-split incision: alternative to routine open commissurotomy (Gott et al.), 66
open approach to (Finnegan et al.), 75
prosthesis, Beall, single valve replacement with (Rossi et al.), 83
and tricuspid valve disease, analysis of risk factors involved in reoperation for (Mary et al.), 333
valve, double, with subaortic stenosis, successful surgical management of (Mercer and Tubbs), 440
floppy (redundant cusp syndrome), natural history and surgical management of (Hill et al.), 519
Mitral valve—Cont'd
prosthesis(es), Hammersmith, due to wear of polypropylene, sudden mechanical malfunction of (Shaw et al.), 579
late death due to escape of ball from (Keen), 202
Starr-Edwards, cloth-covered, early, late postoperative clinical and hemodynamic assessment of (Pietras et al.), 450
replacement with cloth-covered composite-seat prostheses: case for early operation (Bonchek et al.), 93
with glutaraldehyde-preserved porcine heterograft: clinical, hemodynamic, and pathological correlations (Horowitz et al.), 885
for mitral regurgitation due to Libman-Sacks endocarditis: report of case (Myerowitz et al.), 869
for regurgitation in infant with Marfan's syndrome (Pifarré et al.), 233
single, early and late complications of: comparison of eight different prostheses (Lee et al.), 920
Monitoring, metabolic, and control of artificial heart (Stanley and Kolff), 434
Morphologic and hydraulic study of fibrous intimal hyperplasia in autogenous saphenous vein bypass grafts (Kennedy et al.), 805
Mucus, bronchial, after lung autotransplantation in dogs (Morinari et al.), 484
gland adenoma of bronchus (Allen et al.), 966
Muscle dysfunction, papillary, after acute myocardial infarction, management of (Lamberti et al.), 349
Myocardial infarctectomy, experimental, ultrastructural and hemodynamic evaluation of (Limet et al.), 243
infarction, acute, late development of intractable ventricular tachycardia after (Sehapayak et al.), 818
management of papillary muscle dysfunction after (Lamberti et al.), 349
intra-, tissue pressure, diastolic, before, during, and after temporary occlusion of left anterior descending coronary artery (Peyster and Stuckey), 343
ischemia by arterialization of coronary vein, reversal of (Bhayana et al.), 125
by left ventricular bypass after acute coronary artery occlusion, reduction in (DeLaria et al.), 826

Myocardial ischemia—Cont'd
in primates, surface pH changes during and after (McNamara et al.), 191
Myocardium by anoxic cardiac arrest, mitochondrial enzymatic alterations produced in (Gomes et al.), 649
demonstrated by injection of ^{43}K into peripheral vein, surgical revascularization of (Botti and MacIntyre), 682

N

Necrosis, fat, pericardial: case report and review (Webster and Bahnson), 430
Neonatal lambs, awake, prolonged circulatory assistance in (Melrose and Singh), 584
Neuropathy, disabling, associated with thymoma: reversal by excision (Laforet et al.), 164
Nonteaching medical center, cardiac surgery in (Sacks), 599

O

Obstruction, tracheal, progressive (Coulson et al.), 733
valvular, triscuspid, resection of leiomyoma of inferior vena cava that produced (Mandelbaum et al.), 561
Occlusion, artery, coronary, acute, reduction in myocardial ischemia by left ventricular bypass after (DeLaria et al.), 826
temporary, of left anterior descending coronary artery, diastolic intramyocardial tissue pressure before, during, and after (Peyster and Stuckey), 343
Open approach to mitral commissurotomy (Finnegan et al.), 75
commissurotomy, routine, alternative to: closed mitral commissurotomy on cannulated pump stand-by through sternal-split incision (Gott et al.), 66
–heart surgery, acupuncture anesthesia for: bona fide anesthetic agent or another form of suggestion? (Effler), 328 (Edit.)
control of heparin therapy in (Jaberi et al.), 133
levels of plasma insulin and glucose after (Hill et al.), 712
sources of gram-negative infection after (Rosendorf et al.), 195
Operations, cardiac, complication of: isolated coronary arterial dissection (Bulkley and Roberts), 148
palliative, for Fallot's tetralogy, late results of (Brock), 511
Orifice, graft, aorto–saphenous vein, radiopaque suture to identify (Elias and Burman), 282
Origin, anomalous, of left coronary artery from pulmonary artery: significance of saphenous vein bypass between aorta and left coronary artery (Endo et al.), 896
Orthotopic heart allografts, comparison of efficacy of immunosuppressive regimens on (Kondo et al.), 612
Ostium(a), coronary, new, in ascending aorta, creation of: technical considerations (Thomas and Bichlmeier), 291
primum (partial form of common atrioventricular canal), long-term follow-up after surgical correction of (Lévy et al.), 353
Outflow, ventricular, right, and pulmonary artery with valve made from autologous vein mounted on Dacron tube, reconstruction of: experimental study (Castillo-Oliveres et al.), 419
Oxygenator(s), blood, disposable, Harvey H200, new, clinical evaluation of (Page and Haller), 213
membrane and bubble, and blood filters, platelet aggregate emboli produced in patients during cardiopulmonary bypass with (Dutton et al.), 258
in infants, heart surgery with (Sugg et al.), 593

P

Pacemaker(s), demand or fixed-rate: eleven-year experience with 76 patients (Grover et al.), 142
electrode(s), cardiac, clinical, presently used, comparative studies of "state of art" and (Tyers et al.), 849
temporary, implantable, improved (Aris et al.), 708
transvenous, permanent, method for percutaneous insertion of (Gregg et al.), 387
twiddler's syndrome: further note (Meyer et al.), 903
Pacing, demand, permanent (Sasse), 671 (Letter)
Palliation of advanced esophageal carcinoma by permanent intubation (Haiderer et al.), 491
Palliative operations for Fallot's tetralogy, late results of (Brock), 511
surgery of tricuspid atresia, remote delayed ligation of vena cava in: modification of Glenn procedure (Hiebert et al.), 407

Papillary muscle dysfunction after acute myocardial infarction, management of (Lamberti et al.), 349

Passenger blood cells as adjunct in decreasing rejection in canine heterotopic heart transplants, clearance of (Gonzalez-Lavin et al.), 466

Patent ductus arteriosus, management of premature infants with (Murphy et al.), 221

Percutaneous insertion of permanent transvenous pacemaker electrodes, method for (Gregg et al.), 387

Perforation of esophagus with foreign body, purulent pericarditis due to (Bozer et al.), 590

Perfusion, coronary, with cold Ringer's lactate solution, protection from ischemic cardiac arrest by (Tyers et al.), 411

extracorporeal, emboli in (Archie), 331 (Letter); Reply (Edmunds and Dutton), 332

via left heart bypass technique, in vivo evaluation of pulsatile ventricle pump by (Bivona et al.), 571

retro-, of heart with solution of glucose, insulin, and potassium during anoxic arrest (Lolley et al.), 364

Pericardial effusion, chronic, requiring pericardiectomy in postpericardiotomy syndrome (McCabe et al.), 814

fat necrosis: case report and review (Webster and Bahnson), 430

intra-, teratoma and bronchogenic cyst: review of literature and report of successful surgery in infant with intrapericardial teratoma (Deenadayalu et al.), 945

Pericardiectomy in postpericardiotomy syndrome, chronic pericardial effusion requiring (McCabe et al.), 814

Pericarditis, purulent, due to perforation of esophagus with foreign body (Bozer et al.), 590

Permanent demand pacing (Sasse), 671 (Letter)

transvenous pacemaker electrodes, method for percutaneous insertion of (Gregg et al.), 387

pH changes, surface, during and after myocardial ischemia in primates (McNamara et al.), 191

Phagocytic functions during cardiopulmonary bypass, transient defects in (Silva et al.), 175

Physiological approach to high-frequency testing of prosthetic ball valves (Almond et al.), 839

Plasma insulin and glucose after open-heart surgery, levels of (Hill et al.), 712

Platelet aggregate emboli produced in patients during cardiopulmonary bypass with membrane and bubble oxygenators and blood filters (Dutton et al.), 258

function, preoperative and postoperative, in cyanotic congenital heart disease (Ekert and Sheers), 184

Pleuropulmonary diseases, simple method in diagnosing: thoracoscopy with fiberoptic bronchoscope (Senno et al.), 606

Pneumonectomy, post-, space, disappearance of fluid from (OMeara and Slade), 621

tumor embolus as cause of death during (Heydorn et al.), 308

Pneumothorax complicating continuous ventilatory support (Steier et al.), 17

Polypropylene, sudden mechanical malfunction of Hammersmith mitral valve prostheses due to wear of (Shaw et al.), 579

Postpericardiotomy syndrome and to altered host immunologic reactivity, relationships to: febrile responses associated with cardiac surgery (Roses et al.), 251

chronic pericardial effusion requiring pericardiectomy in (McCabe et al.), 814

Postpneumonectomy space, disappearance of fluid from (O'Meara and Slade), 621

Post-traumatic aneurysm, chronic, of aortic arch, surgical repair of (Midgley and Behrendt), 229

Potassium, glucose, and insulin during anoxic arrest, retroperfusion of heart with solution of (Lolley et al.), 364

Premature infants with patent ductus arteriosus, management of (Murphy et al.), 221

Pressure, tissue, intramyocardial, diastolic, before, during, and after temporary occlusion of left anterior descending coronary artery (Peyster and Stuckey), 343

Primary pulmonary amyloidosis: report of 2 cases (Saab et al.), 301

Procedure, Glenn, modification of: remote delayed ligation of vena cava in palliative surgery of tricuspid atresia (Hiebert et al.), 407

Progressive tracheal obstruction (Coulson et al.), 733

Propranolol, results of coronary artery surgery in patients receiving (Caralps et al.), 526

Prosthesis(es), ball-valve, Starr-Edwards, for acquired valvular heart disease, intraoperative hemodynamics after insertion of (Fletcher et al.), 285
cloth-covered composite-seat, mitral valve replacement with: case for early operation (Bonchek et al.), 93
different, eight, comparison of: early and late complications of single mitral valve replacement (Lee et al.), 920
mitral, Beall, single valve replacement with (Rossi et al.), 83
valve, mitral, Hammersmith, due to wear of polypropylene, sudden mechanical malfunction of (Shaw et al.), 579
late death due to escape of ball from (Keen), 202
Starr-Edwards, cloth-covered, early, late postoperative clinical and hemodynamic assessment of (Pietras et al.), 450
wire coil, stainless steel, in treatment of anastomotic dehiscence after cervical tracheal resection, use of (Pagliero and Shepherd), 932
Prosthetic ball valves, physiological approach to high-frequency testing of (Almond et al.), 839
heart valves, skirts, and struts, electron microscopy and physical chemistry of healing in: modification by electrochemically clean physiologic surfaces (Sawyer et al.), 24
valve in ascending aorta and placement of bypass grafts to coronary arteries, successful treatment of aortic valve endocarditis and aortic root abscesses by insertion of (Danielson et al.), 443
Pulmonary amyloidosis, primary: report of 2 cases (Saab et al.), 301
arterial hypertension after repair of tetralogy of Fallot (Kinsley et al.), 110
artery anastomosis, superior vena cava– (Willman et al.), 380
anomalous origin of left coronary artery from: significance of saphenous vein bypass between aorta and left coronary artery (Endo et al.), 896
and right ventricular outflow with valve made from autologous vein mounted on Dacron tube, reconstruction of: experimental study (Castillo-Olivares et al.), 419
Pulmonary artery—Cont'd
shunt, side-to-end aorto–left, corrective operation for tetralogy of Fallot in presence of: unusual case and suggestion concerning management (Shumacker), 770
coccidioidomycosis presenting by direct extension through chest wall (Franz et al.), 474
dirofilariasis (Hoch et al.), 159
hemodynamics and microcirculation in hemorrhagic shock, role of serotonin and serotonin antagonist on (Kusajima et al.), 908
stenosis, transposition of great arteries, and ventricular septal defect, false aneurysm of right ventricle after Rastelli operation for (Jacobs et al.), 543
and systemic venous drainage, anomalous, anomalous position of atrial septum with: correction including ligation of persistent left superior vena cava (Utley et al.), 730
vein(s), individual, stenosis of: review of literature and report of surgical case (Sade et al.), 953
stenosis, bilateral, diagnosis and surgical treatment of (Park et al.), 755
Pulmonic stenosis, infundibular, experimental: effects of positive inotropic agents (Jones et al.), 699
Pulsatile ventricle pump by perfusion via left heart bypass technique, in vivo evaluation of (Bivona et al.), 571
Pump stand-by, cannulated, through sternal-split incision, closed mitral commissurotomy on: alternative to routine open commissurotomy (Gott et al.), 66
ventricle, pulsatile, by perfusion via left heart bypass technique, in vivo evaluation of (Bivona et al.), 571
Pumping, balloon, unidirectional, in inferior vena cava and aorta: effects on canine hemodynamics in cardiogenic shock (Bregman et al.), 553
Purulent pericarditis due to perforation of esophagus with foreign body (Bozer et al.), 590

R

Radiopaque suture to identify aorto–saphenous vein graft orifice (Elias and Burman), 282

Rastelli operation for transposition of great arteries, ventricular septal defect, and pulmonary stenosis, false aneurysm of right ventricle after (Jacobs et al.), 543

Reactivity, immunologic, host, altered, relationships to postpericardiotomy syndrome and to: febrile responses associated with cardiac surgery (Roses et al.), 251

Rebound, heparin: studies in patients and volunteers (Ellison et al.), 723

Reconstruction of right ventricular outflow and pulmonary artery with valve made from autologous vein mounted on Dacron tube: experimental study (Castillo-Olivares et al.), 419

tracheal, tracheal–innominate artery fistula after: case of successful repair (Revilla et al.), 629

of two-coronary system, atretic right coronary artery–right ventricular fistula and (Bandow et al.), 694

Red China, medicine in: politically dominated blend of ancient and contemporary arts (Effler), 167

Redundant cusp syndrome (floppy mitral valve), natural history and surgical management of (Hill et al.), 519

Regimens, immunosuppressive, on orthotopic heart allografts, comparison of efficacy of (Kondo et al.), 612

Regurgitation in infant with Marfan's syndrome, mitral valve replacement for (Pifarré et al.), 233

mitral, due to Libman-Sacks endocarditis, mitral valve replacement for: report of case (Myerowitz et al.), 869

Rejection in canine heterotopic heart transplants, clearance of passenger blood cells as adjunct in decreasing (Gonzalez-Lavin et al.), 466

Removal of intact contralateral lung, possibility of prolonged survival of animals with autotransplanted lung after (Rabinovich et al.), 744

Repair, early, of traumatic ventricular septal defect (Clark et al.), 121

successful, of common ventricle associated with complete atrioventricular canal (Danielson et al.), 152

surgical, of chronic post-traumatic aneurysm of aortic arch (Midgley and Behrendt), 229

of positional anomalies of conotruncus (Kinsley et al.), 395

Repair—Cont'd

of tetralogy of Fallot, pulmonary arterial hypertension after (Kinsley et al.), 110

of tracheal stenosis, tracheal–innominate artery fistula after: problem and prevention (Arbulu and Thoms), 936

of ventricular septal defect in corrected transposition, atrial approach for (Skow and Mulder), 426

Replacement of superior and inferior venae cavae, use of Gortex grafts for (Fujiwara et al.), 774

valve, in acute rheumatic heart disease (Strauss et al.), 659

aortic, with preserved aortic valve homografts (Wallace et al.), 44

mitral, with cloth-covered composite-seat prostheses: case for early operation (Bonchek et al.), 93

with glutaraldehyde-preserved porcine heterograft: clinical, hemodynamic, and pathological correlations (Horowitz et al.), 885

for mitral regurgitation due to Libman-Sacks endocarditis: report of case (Myerowitz et al.), 869

for regurgitation in infant with Marfan's syndrome (Pifarré et al.), 233

single, early and late complications of: comparison of eight different prostheses (Lee et al.), 920

single, with Beall mitral prosthesis (Rossi et al.), 83

Resection of leiomyoma of inferior vena cava that produced tricuspid valvular obstruction (Mandelbaum et al.), 561

tracheal, cervical, use of stainless steel wire coil prosthesis in treatment of anastomotic dehiscence after (Pagliero and Shepherd), 932

Retroperfusion of heart with solution of glucose, insulin, and potassium during anoxic arrest (Lolley et al.), 364

Revascularization, surgical, of myocardium demonstrated by injection of ^{43}K into peripheral vein (Botti and MacIntyre), 682

Rheumatic heart disease, acute, valve replacement in (Strauss et al.), 659

Ringer's lactate solution, cold, protection from ischemic cardiac arrest by coronary perfusion with (Tyers et al.), 411

Risk factors involved in reoperation for mitral and tricuspid valve disease, analysis of (Mary et al.), 333

Root abscesses, aortic, and aortic valve endocarditis by insertion of prosthetic valve in ascending aorta and placement of bypass grafts to coronary arteries, successful treatment of (Danielson et al.), 443

Rupture of ventricular septum, acute bacterial endocarditis of aortic valve with (Singh et al.), 718

S

Scanning and light microscopy of human aortic leaflets in stressed and relaxed states (Clark and Finke), 792

Septum, atrial, with anomalous pulmonary and systemic venous drainage, anomalous position of: correction including ligation of persistent left superior vena cava (Utley et al.), 730

ventricular, acute bacterial endocarditis of aortic valve with rupture of (Singh et al.), 718

Serotonin and serotonin antagonist on pulmonary hemodyanmics and microcirculation in hemorrhagic shock, role of (Kusajima et al.), 908

Shock, cardiogenic, effects on canine hemodynamics in: unidirectional balloon pumping in inferior vena cava and aorta (Bregman et al.), 553

hemorrhagic, role of serotonin and serotonin antagonist on pulmonary hemodynamics and microcirculation in (Kusajima et al.), 908

lung syndrome and cerebral hypotension (Kusajima et al.), 969

Shunt, side-to-end aorto–left pulmonary artery, corrective operation for tetralogy of Fallot in presence of: unusual case and suggestion concerning management (Shumacker), 770

Space, postpneumonectomy, disappearance of fluid from (O'Meara and Slade), 621

Stab wounds of aorta, delayed hemorrhage after (Manwaring), 788

Starr-Edwards ball-valve prostheses for acquired valvular heart disease, intraoperative hemodynamics after insertion of (Fletcher et al.), 285

mitral valve prosthesis, cloth-covered, early, late postoperative clinical and hemodynamic assessment of (Pietras et al.), 450

Stenosis in adults, aortic valvuloplasty for: late results (Rees et al.), 390

Stenosis—Cont'd

aortic, supravalvular, atresia of proximal left coronary artery associated with: surgical treatment (Allen et al.), 266

of individual pulmonary veins: review of literature and report of surgical case (Sade et al.), 953

pulmonary, transposition of great arteries, and ventricular septal defect, false aneurysm of right ventricle after Rastelli operation for (Jacobs et al.), 543

pulmonic, infundibular, experimental: effects of positive inotropic agents (Jones et al.), 699

subaortic, successful surgical management of double mitral valve with (Mercer and Tubbs), 440

tracheal, tracheal–innominate artery fistula after repair of: problem and prevention (Arbulu and Thoms), 936

valvular, aortic, experimental production of: short-term and long-term studies in dogs (Copeland et al.), 371

vein, pulmonary, bilateral, diagnosis and surgical treatment of (Park et al.), 755

Sternal-split incision, closed mitral commissurotomy on cannulated pump standby through: alternative to routine open commissurotomy (Gott et al.), 66

Subaortic stenosis, successful surgical management of double mitral valve with (Mercer and Tubbs), 440

Superior and inferior venae cavae, use of Gortex grafts for replacement of (Fujiwara et al.), 774

vena cava, left, persistent, correction including ligation of: anomalous position of atrial septum with anomalous pulmonary and systemic venous drainage (Utley et al.), 730

–pulmonary artery anastomosis (Willman et al.), 380

Support, heart, for coronary bypass surgery involving circumflex artery system (Janke), 883

ventilatory, continuous, pneumothorax complicating (Steier et al.), 17

Supravalvular aortic stenosis, atresia of proximal left coronary artery associated with: surgical treatment (Allen et al.), 266

Surgery, artery, coronary, in patients receiving propranolol, results of (Caralps et al.), 526

Surgery—Cont'd
cardiac, hyperalimentation in: review of 64 patients (Abel et al.), 294
in nonteaching medical center (Sacks), 599
corrective, of transposition of great arteries in first year of life: results in 63 infants (Stark et al.), 673
heart, with membrane oxygenator in infants (Sugg et al.), 593
multiple valve and coronary artery, technical consideration in (Okies et al.), 762
open-heart, acupuncture anesthesia for: bona fide anesthetic agent or another form of suggestion? (Effler), 328 (Edit.)
control of heparin therapy in (Jaberi et al.), 133
levels of plasma insulin and glucose after (Hill et al.), 712
sources of gram-negative infection after (Rosendorf et al.), 195
Surgical anatomy of truncus arteriosus communis (Bharati et al.), 501
correction of partial form of common atrioventricular canal (ostium primum), long-term follow-up after (Lévy et al.), 353
management of acquired tricuspid valve disease (Carpentier et al.), 53
of acute injury to thoracic aorta (Reul et al.), 272
repair of positional anomalies of conotruncus (Kinsley et al.), 395
treatment and diagnosis of bilateral pulmonary vein stenosis (Park et al.), 755
Survival, improved, in canine heterotopic cardiac transplants without immunosuppression (O'Connell et al.), 459
prolonged, of animals with autotransplanted lung after removal of intact contralateral lung, possibility of (Rabinovich et al.), 744
Syndrome, cusp, redundant (floppy mitral valve), natural history and surgical management of (Hill et al.), 519
lung, shock, and cerebral hypotension (Kusajima et al.), 969
Marfan's, mitral valve replacement for regurgitation in infant with (Pifarré et al.), 233
pacemaker twiddler's: further note (Meyer et al.), 903
postpericardiotomy, and to altered host immunologic reactivity, relationships to: febrile responses associated with cardiac surgery (Roses et al.), 251
Syndrome, postpericardiotomy—Cont'd
chronic pericardial effusion requiring pericardiectomy in (McCabe et al.), 814
System, conduction, atrioventricular, specialized, in patients with congenital heart disease, electrophysiological delineation of: I. Delineation of His bundle proximal to membranous septum (Krongrad et al.), 875
Systemic and pulmonary venous drainage, anomalous, anomalous position of atrial septum with: correction including ligation of persistent left superior vena cava (Utley et al.), 730

T

Tachycardia, ventricular, intractable, after acute myocardial infarction, late development of (Sehapayak et al.), 818
at will (Prabhu et al.), 404
Technique for management of inaccessible coarctation of aorta (Siderys et al.), 568
Temporary pacemaker electrode, implantable, improved (Aris et al.), 708
Teratoma, intrapericardial, and bronchogenic cyst: review of literature and report of successful surgery in infant with intrapericardial teratoma (Deenadayalu et al.), 945
Testing, high-frequency, of prosthetic ball valves, physiological approach to (Almond et al.), 839
Tetralogy, Fallot('s), late results of palliative operations for (Brock), 511
in presence of side-to-end aorto–left pulmonary artery shunt, corrective operation for: unusual case and suggestion concerning management (Shumacker), 770
pulmonary arterial hypertension after repair of (Kinsley et al.), 110
use of large homograft artery with semilunar valve for correction of: follow-up study (Kawashima et al.), 685
Therapy, heparin, in open-heart surgery, control of (Jaberi et al.), 133
Thoracic aorta, surgical management of acute injury to (Reul et al.), 272
intra-, meningocele, unilateral, double: report of case (Blewett and Szypulski), 481
Thoracoscopy with fiberoptic bronchoscope: simple method in diagnosing pleuropulmonary diseases (Senno et al.), 606

Thrombosis of aorto-coronary saphenous vein graft, blunt chest trauma associated with (Lajos et al.), 941

Thymoma: analysis of benign and malignant criteria (Jain and Frable), 310

disabling neuropathy associated with: reversal by excision (Laforet et al.), 164

Tissue pressure, intramyocardial, diastolic, before, during, and after temporary occlusion of left anterior descending coronary artery (Peyster and Stuckey), 343

Tracheal–innominate artery fistula after repair of tracheal stenosis: problem and prevention (Arbulu and Thoms), 936

after tracheal reconstruction: case of successful repair (Revilla et al.), 629

obstruction, progressive (Coulson et al.), 733

resection, cervical, use of stainless steel wire coil prosthesis in treatment of anastomotic dehiscence after (Pagliero and Shepherd), 932

Transplantation, auto-, lung, in dogs, bronchial mucus after (Morinari et al.), 484

Transplanted, auto-, lung after removal of intact contralateral lung, possibility of prolonged survival of animals with (Rabinovich et al.), 744

Transplants, cardiac, heterotopic, canine, without immunosuppression, improved survival in (O'Connell et al.), 459

heart, heterotopic, canine, clearance of passenger blood cells as adjunct in decreasing rejection in (Gonzalez-Lavin et al.), 466

Transposition, corrected, atrial approach for repair of ventricular septal defect in (Skow and Mulder), 426

of great arteries in first year of life, corrective surgery of: results in 63 infants (Stark et al.), 673

reoperation for dysfunctional intra-atrial baffle (Grehl and Shumway), 863

ventricular septal defect, and pulmonary stenosis, false aneurysm of right ventricle after Rastelli operation for (Jacobs et al.), 543

vessels in relation to anatomic surgical correction, coronary artery anatomy in (Balderman et al.), 208

Transvenous pacemaker electrodes, permanent, method for percutaneous insertion of (Gregg et al.), 387

Trauma, chest, blunt, associated with thrombosis of aorto-coronary saphenous vein graft (Lajos et al.), 941

Trauma, chest, blunt—Cont'd

avulsion of innominate artery after: new application for old technique (Franz et al.), 478

Traumatic, post-, aneurysm, chronic, of aortic arch, surgical repair of (Midgley and Behrendt), 229

ventricular septal defect, early repair of (Clark et al.), 121

Tricuspid atresia: a re-evaluation and classification (Tandon and Edwards), 530

remote delayed ligation of vena cava in palliative surgery of: modification of Glenn procedure (Hiebert et al.), 407

and mitral valve disease, analysis of risk factors involved in reoperation for (Mary et al.), 333

valve disease, acquired, surgical management of (Carpentier et al.), 53

valvular obstruction, resection of leiomyoma of inferior vena cava that produced (Mandelbaum et al.), 561

Truncus arteriosus communis, surgical anatomy of (Bharati et al.), 501

Tube, Dacron, reconstruction of right ventricular outflow and pulmonary artery with valve made from autologous vein mounted on: experimental study (Castillo-Olivares et al.), 419

Tumor embolus as cause of death during pneumonectomy (Heydorn et al.), 308

Twiddler's syndrome, pacemaker: further note (Meyer et al.), 903

Two-coronary system, atretic right coronary artery–right ventricular fistula and reconstruction of (Bandow et al.), 694

U

Ultrapore hemofiltration during extracorporeal circulation (Gervin et al.), 237

Ultrastructural and hemodynamic evaluation of experimental myocardial infarctectomy (Limet et al.), 243

Unilateral intrathoracic meningocele, double: report of case (Blewett and Szypulski), 481

V

Valve(s), aortic, with rupture of ventricular septum, acute bacterial endocarditis of (Singh et al.), 718

Valve(s)—Cont'd
ball, prosthetic, physiological approach to high-frequency testing of (Almond et al.), 839
cloth-covered, chronic hemolysis produced by: effect of design and valve position (Lefemine et al.), 857
disease, mitral and tricuspid, analysis of risk factors involved in reoperation for (Mary et al.), 333
tricuspid, acquired, surgical management of (Carpentier et al.), 53
endocarditis, aortic, and aortic root abscesses by insertion of prosthetic valve in ascending aorta and placement of bypass grafts to coronary arteries, successful treatment of (Danielson et al.), 443
made from autologous vein mounted on Dacron tube, reconstruction of right ventricular outflow and pulmonary artery with: experimental study (Castillo-Olivares et al.), 419
mitral, double, with subaortic stenosis, successful surgical management of (Mercer and Tubbs), 440
floppy (redundant cusp syndrome), natural history and surgical management of (Hill et al.), 519
multiple, and coronary artery surgery, technical consideration in (Okies et al.), 762
prosthesis(es), mitral, Hammersmith, due to wear of polypropylene, sudden mechanical malfunction of (Shaw et al.), 579
late death due to escape of ball from (Keen), 202
Starr-Edwards, cloth-covered, early, late postoperative clinical and hemodynamic assessment of (Pietras et al.), 450
replacement in acute rheumatic heart disease (Strauss et al.), 659
aortic, with preserved aortic valve homografts (Wallace et al.), 44
mitral, with cloth-covered composite-seat prostheses: case for early operation (Bonchek et al.), 93
with glutaraldehyde-preserved porcine heterograft: clinical, hemodynamic, and pathological correlations (Horowitz et al.), 885
for mitral regurgitation due to Libman-Sacks endocarditis: report of case (Myerowitz et al.), 869
Valve(s), replacement, mitral—Cont'd
for regurgitation in infant with Marfan's syndrome (Pifarré et al.), 233
single, early and late complications of: comparison of eight different prostheses (Lee et al.), 920
single, with Beall mitral prosthesis (Rossi et al.), 83
semilunar, for correction of tetralogy of Fallot, use of large homograft artery with: follow-up study (Kawashima et al.), 685
skirts, and struts, heart, prosthetic, electron microscopy and physical chemistry of healing in: modification by electrochemically clean physiologic surfaces (Sawyer et al.), 24
Valvular heart disease, acquired, intraoperative hemodynamics after insertion of Starr-Edwards ball-valve prostheses for (Fletcher et al.), 285
obstruction, tricuspid, resection of leiomyoma of inferior vena cava that produced (Mandelbaum et al.), 561
stenosis, aortic, experimental production of: short-term and long-term studies in dogs (Copeland et al.), 371
supra-, aortic stenosis, atresia of proximal left coronary artery associated with: surgical treatment (Allen et al.), 266
Valvuloplasty, aortic, for stenosis in adults: late results (Rees et al.), 390
Vein(s) bypass grafts, saphenous, autogenous, hydraulic and morphologic study of fibrous intimal hyperplasia in (Kennedy et al.), 805
coronary, reversal of myocardial ischemia by arterialization of (Bhayana et al.), 125
graft orifice, aorto–saphenous, radiopaque suture to identify (Elias and Burman), 282
peripheral, surgical revascularization of myocardium demonstrated by injection of ^{43}K into (Botti and MacIntyre), 682
pulmonary, individual, stenosis of: review of literature and report of surgical case (Sade et al.), 953
stenosis, pulmonary, bilateral, diagnosis and surgical treatment of (Park et al.), 755
Vena(ae) cava(ae), inferior, and aorta, unidirectional balloon pumping in: effects on canine hemodynamics in cardiogenic shock (Bregman et al.), 553

Vena(ae) cava(ae), inferior—Cont'd
that produced tricuspid valvular obstruction, resection of leiomyoma of (Mandelbaum et al.), 561
in palliative surgery of tricuspid atresia, remote delayed ligation of: modification of Glenn procedure (Hiebert et al.), 407
–pulmonary artery anastomosis, superior (Willman et al.), 380
superior and inferior, use of Gortex grafts for replacement of (Fujiwara et al.), 774
left, persistent, correction including ligation of: anomalous position of atrial septum with anomalous pulmonary and systemic venous drainage (Utley et al.), 730
Venous drainage, pulmonary and systemic, anomalous, anomalous position of atrial septum with: correction including ligation of persistent left superior vena cava (Utley et al.), 730
Ventilatory support, continuous, pneumothorax complicating (Steier et al.), 17
Ventricle, common, associated with complete atrioventricular canal, successful repair of (Danielson et al.), 152
pump, pulsatile, by perfusion via left heart bypass technique, in vivo evaluation of (Bivona et al.), 571
right, after Rastelli operation for transposition of great arteries, ventricular septal defect, and pulmonary stenosis, false aneurysm of (Jacobs et al.), 543
Ventricular aneurysmectomy, left, in 4-month-old infant: alternative method of treatment of anomalous left coronary artery (Turina et al.), 915
bypass, left, after acute coronary artery occlusion, reduction in myocardial ischemia by (DeLaria et al.), 826
fistula, atretic right coronary artery–right, and reconstruction of two-coronary system (Bandow et al.), 694
intra-, balloon, cardiac assist with (Satava and McGoon), 780
Ventricular—Cont'd
outflow, right, and pulmonary artery with valve made from autologous vein mounted on Dacron tube, reconstruction of: experimental study (Castillo-Olivares et al.), 419
septal defect in corrected transposition, atrial approach for repair of (Skow and Mulder), 426
transposition of great arteries, and pulmonary stenosis, false aneurysm of right ventricle after Rastelli operation for (Jacobs et al.), 543
traumatic, early repair of (Clark et al.), 121
septum, acute bacterial endocarditis of aortic valve with rupture of (Singh et al.), 718
tachycardia, intractable, after acute myocardial infarction, late development of (Sehapayak et al.), 818
at will (Prabhu et al.), 404
Vessels, great, transposition of, in relation to anatomic surgical correction, coronary artery anatomy in (Balderman et al.), 208

W

Wall, chest, pulmonary coccidioidomycosis presenting by direct extension through (Franz et al.), 474
Water and albumin fluxes during cardiopulmonary bypass (Beattie et al.), 926
Wire coil prosthesis, stainless steel, in treatment of anastomotic dehiscence after cervical tracheal resection, use of (Pagliero and Shepherd), 932
Wounds, stab, of aorta, delayed hemorrhage after (Manwaring), 788

Y

Young men, cancer of lung in (Kyriakos and Webber), 634

Pulmonary arterial supply, absence of anatomic origin from heart of: clinical application of classification (Berry et al.), 119
artery, left, anomalous, arising from aortic arch, total correction of tetralogy of Fallot associated with (Imai et al.), 51
aspergillosis, surgical aspects of (Saab and Almond), 455
contusion, experimental, effect of methylprednisolone sodium succinate on (Franz et al.), 842
embolism, effect of neural and humoral factors on pulmonary hemodynamics and microcirculation in (Ozdemir et al.), 896
function in puppies undergoing total cardiopulmonary bypass with bubble or membrane oxygenators, comparison of (Rhodes et al.), 658
histoplasmosis, chronic, role and results of surgery in management of (Saab et al.), 159
sequestration with spontaneous intrapleural hemorrhage (Zumbro et al.), 673
varix (Perrott and Shin), 318
venous drainage, anomalous, total, below diaphragm: clinical presentation, hemodynamic findings, and surgical results (Higashino et al.), 711
Pulsatile cardiopulmonary bypass, hemodynamic, metabolic, and hematologic effects of (Dunn et al.), 138
Pulse generator, new, with narrow pulse width for conservation of battery energy, clinical evaluation of (Smyth et al.), 471
Pumping, balloon, intra-aortic, left ventricular and unidirectional: effects on hemodynamics in canine cardiogenic shock (Bregman et al.), 677

Q

Quadriparesis, spontaneous, coarctation of aorta with: case report (Aaron et al.), 76

R

Regurgitation, aortic, and left atrial myxoma: case report (Rose et al.), 797
Reimplantation, lung, bilateral, one-stage, cardiopulmonary function studies in long-term survivors of (Kondo et al.), 303
Rejection, acute, of orthotopically transplanted hearts in dogs, changes in left ventricular mechanical and hemodynamic function during (Stinson et al.), 783
Repair of coarctation of thoracic aorta by patch graft aortoplasty (Reul et al.), 696
physiological, simple, of diaphragmatic hernia: repositioning of lower esophageal sphincter (Kaunitz et al.), 513
of recurrent tracheoesophageal fistula, left extrapleural approach for (Slim and Tabry), 654
Replacement, prosthetic, in treatment of Pseudomonas endocarditis, consequences of total tricuspid valvulectomy without (Robin et al.), 461
tricuspid valve endocarditis (Vidne and Levy), 47
valve, aortic, with fascia lata: encouraging late study (Trimble et al.), 219
in presence of Hufnagel valve in descending aorta. One-stage valve replacement and resection of Hufnagel valve: report of case (Attai et al.), 112
cardiac, in children (Berry et al.), 705
mitral, comparative study of ball and disc prostheses in (Aris et al.), 335
tricuspid: comparative experimental study with Starr-Edwards ball valve, Beall disc valve, and Kay-Shiley disc valve with muscle guard (Mori et al.), 30
Resection of aneurysm of transverse aortic arch: new simplified technique using permanent bypass graft and extracorporeal circulation (Larmi and Kärkölä), 70
and end-to-end anastomosis of esophagus, use of circular myotomy to facilitate: experimental study (Muangsombut et al.), 522
sleeve, in dogs, comparison of gas exchange after simple lobectomy and lobectomy with (Wood et al.), 646
in tumors involving chest wall, value of (Burnard et al.), 530
Resectional, conservative, and bronchoplastic procedures for bronchial adenoma (Jensik et al.), 556
Respiratory insufficiency, acute, with long-term extracorporeal oxygenation, prognostic factors in treatment of (Hill et al.), 905

Respiratory insufficiency, acute—Cont'd
transient, of *Pneumocystis carinii* pneumonia, role of membrane lung support in (Geelhoed et al.), 802
Return, venous, systemic, following Mustard operation for transposition of great arteries, obstruction to (Stark et al.), 742
Revascularization, emergency, for intermediate coronary syndrome, long-term follow-up in patients receiving (Bolooki et al.), 90
surgery (Effler), 977 (Letter); Reply (Sautter), 977
Rib, first, and related entrapments through posterolateral approach, treatment of thoracic outlet syndrome by removal of: 22 year experience (Johnson), 536
Robb, Sir Douglas (Myers), 975 (Letter)
Rupture of dissecting aneurysm of thoracic aorta into right heart chambers (Holmes et al.), 611

S

Safety, electrical, in hospitals (Kagey), 975 (Letter)
Saphenous vein graft, long, subcutaneous, bypassing obstructed superior vena cava with (Taylor et al.), 237
Scimitar syndrome, spectrum of (Farnsworth and Ankeney), 37
Secretions, tracheal, following tracheostomy, clinical and immunologic response to bacteria isolated from (Espinoza et al.), 432
Sequestration, pulmonary, with spontaneous intrapleural hemorrhage (Zumbro et al.), 673
Shock, cardiogenic, acute, clinical experience with heparinless venoarterial bypass without oxygenation for treatment of (Wakabayashi et al.), 687
canine, effects on hemodynamics in: left ventricular and unidirectional intra-aortic balloon pumping (Bregman et al.), 677
Shunting, atelectatic, effect of steroids on adaptation to (Schwartz et al.), 822
Silicone membrane oxygenator (Drinker and Bartlett), 976 (Letter); Reply (Melrose), 976
Skin temperature in leg after open-heart surgery, regional changes of: their significance in relation to prognosis (Seki et al.), 411
Sleeve resection in dogs, comparison of gas exchange after simple lobectomy and lobectomy with (Wood et al.), 646
Sodium succinate, methylprednisolone, on experimental pulmonary contusion, effect of (Franz et al.), 842
Specimens, autopsy, 1,000, changes in esophagus in (Postlethwait and Musser), 953
Spectrum of scimitar syndrome (Farnsworth and Ankeney), 37
Sphincter, esophageal, lower, repositioning of: simple physiological repair of diaphragmatic hernia (Kaunitz et al.), 513
Spontaneous vs. electrical fibrillation, I. Studies of effects of ventricular fibrillation on adequacy of regional myocardial flow (Hottenrott et al.), 615
Starr-Edwards ball valve, Beall disc valve, and Kay-Shiley disc valve with muscle guard, comparative experimental study with; tricuspid valve replacement (Mori et al.), 30
Stellite 21, adsorption of fibrinogen-^{125}I on: study with polished and Teflon-covered surfaces (Lemos et al.), 405
Stem bronchus, mucoid impaction of (Laforet), 309
Stenosis, aortic, congenital, cystic medial necrosis and dissecting aneurysm of aorta in child with (Becker et al.), 108
mitral, in young in developing countries (Bhayana et al.), 126
subaortic, discrete, associated with intracardiac abnormalities: successful treatment of two patients (Takeuchi et al.), 292
hypertrophic, importance of incision in operation for (Reis), 481 (Letter)
muscular (Demos), 479 (Letter)
treatment of (Bigelow et al.), 384
subvalvular, of aortic prostheses: complication of suture buttress technique (Weinstein et al.), 17
Steroids on adaptation to atelectatic shunting, effect of (Schwartz et al.), 822
Streptokinase, thrombosis of superior vena cava caused by pacemaker wire and managed with (Williams and Demos), 134
Strictures, esophageal, dilatable, improved technique for combined Collis-Belsey approach to (Orringer and Sloan), 298
Subannular aneurysms associated with acute, massive aortic insufficiency (Arbulu and Thoms), 380
Subaortic stenosis, discrete, associated with intracardiac abnormalities: successful treatment of two patients (Takeuchi et al.), 292
hypertrophic, importance of incision in operation for (Reis), 481 (Letter)
muscular (Demos), 479 (Letter)
treatment of (Bigelow et al.), 384

Subvalvular stenosis of aortic prostheses: complication of suture buttress technique (Weinstein et al.), 17
Succinate, sodium, methylprednisolone, on experimental pulmonary contusion, effect of (Franz et al.), 842
Superior vena cava caused by pacemaker wire and managed with streptokinase, thrombosis of (Williams and Demos), 134
Support, cardiopulmonary, extracorporeal, prolonged, in man (Bartlett et al.), 918
lung, membrane, in transient acute respiratory insufficiency of *Pneumocystis carinii* pneumonia, role of (Geelhoed et al.), 802
Surfactant by lung allograft extracts, inhibition of (Drews et al.), 837
Surgery, artery, coronary: new technique with use of little blood, if any (Zubiate et al.), 263
for bullous emphysema, long-term results of (FitzGerald et al.), 566
bypass coronary, graduated probes for (Parsonnet et al.), 424
in management of chronic pulmonary histoplasmosis, role and results of (Saab et al.), 159
open-heart, during first three months of life (Castaneda et al.), 719
regional changes of skin temperature in leg after: their significance in relation to prognosis (Seki et al.), 411
revascularization (Effler), 977 (Letter); Reply (Sautter), 977
Surgical aspects of pulmonary aspergillosis (Saab and Almond), 455
cases, cardiac, consecutive, 1,426, operative results in (Crouch et al.), 606
treatment in myasthenia gravis: 27 year experience (Cohn et al.), 876
of Wolff-Parkinson-White syndrome (Sealy and Wallace), 757
Survival rates, improved, in dogs after extracorporeal circulation by improved control of heparin levels (Akkerman et al.), 59
Syndrome, coronary, intermediate, long-term follow-up in patients receiving emergency revascularization for (Bolooki et al.), 90
outlet, thoracic, by removal of first rib and related entrapments through posterolateral approach, treatment of: 22 year experience (Johnson), 536
scimitar, spectrum of (Farnsworth and Ankeney), 37
Wolff-Parkinson-White, surgical treatment of (Sealy and Wallace), 757
Synergism, beneficial, for salvage of ischemic myocardium: hypertensive balloon (Clayman et al.), 80
System, alarm, audible, to facilitate intraoperative identification of cardiac conduction tissue (Siegel et al.), 241
Systemic venous return following Mustard operation for transposition of great arteries, obstruction to (Stark et al.), 742

T

Tachycardia, ventricular (Berk), 480 (Letter); Reply (Prabhu et al.), 480
Tamponade, air, and tension pneumopericardium: unusual complication of subtotal pericardiectomy (Khan), 328
pericardial, distribution of intramyocardial blood flow during: correlation with microscopic anatomy and intrinsic myocardial contractility (Wechsler et al.), 847
hemopericardium, and primary low cardiac output syndrome after open-heart surgery, adjunct to differential diagnosis of: juxtaposed epicardial-pericardial clips (Meckstroth and Cattaneo), 447
Teaching service, university, role of physicians' assistants in (Hatcher and Fleming), 750
Technique, improved, for combined Collis-Belsey approach to dilatable esophageal strictures (Orringer and Sloan), 298
simplified, for systemic hypothermia during heart operations with cardiopulmonary bypass (Korompai et al.), 969
Teflon-covered and polished surfaces, study with: adsorption of fibrinogen-^{125}I on Stellite 21 (Lemos et al.), 405
Temperature, skin, in leg after open-heart surgery, regional changes of: their significance in relation to prognosis (Seki et al.), 411
Tension, carbon dioxide, intramyocardial: guide to safe period of anoxic arrest of heart (MacGregor et al.), 101
pneumopericardium and air tamponade: unusual complication of subtotal pericardiectomy (Khan), 328
Tetralogy of Fallot associated with anomalous left pulmonary artery arising from aortic arch, total correction of (Imai et al.), 51
reoperation after total correction of (Donahoo et al.), 466
Thoracic aorta, coarctation of, by patch graft aortoplasty, repair of (Reul et al.), 696
into right heart chambers, rupture of dissecting aneurysm of (Holmes et al.), 611

Thoracic—Cont'd
outlet syndrome by removal of first rib and related entrapments through posterolateral approach, treatment of: 22 year experience (Johnson), 536
Thresholds, relative, for acute intravascular and extravascular mechanical hemolysis (Wallace and Coburn), 792
Thrombosis of superior vena cava caused by pacemaker wire and managed with streptokinase (Williams and Demos), 134
Tilting-disc valve, Björk-Shiley, in isolated aortic valvular disease, five years' experience with (Björk et al.), 393
prosthesis, shrinkage and degradation of Delrin occluder in (Larmi and Kärkölä), 66
Tissue, conduction, cardiac, audible alarm system to facilitate intraoperative identification of (Siegel et al.), 241
valves, long-term evaluation of (Ionescu et al.), 361
Tracheal, aorto-, fistula, broncholithiasis with (Bollengier and Guernsey), 588
secretions following tracheostomy, clinical and immunologic response to bacteria isolated from (Espinoza et al.), 432
Tracheoesophageal fistula, recurrent, left extrapleural approach for repair of (Slim and Tabry), 654
Tracheostomy, clinical and immunologic response to bacteria isolated from tracheal secretions following (Espinoza et al.), 432
Transplanted hearts in dogs, orthotopically, changes in left ventricular mechanical and hemodynamic function during acute rejection of (Stinson et al.), 783
Transposition of great arteries, obstruction to systemic venous return following Mustard operation for (Stark et al.), 742
vessels with ventricular septal defect: surgical and anatomic considerations (Idriss et al.), 732
surgery for hemodynamic correction of: procedure that preserves atrial conduction pathways (Kreutzer et al.), 203
Transseptal atrial pacing, transvenous: long-term study in ten dogs (Udall), 196
Transvenous transseptal atrial pacing: long-term study in ten dogs (Udall), 196
Treatment(s), breathing, positive-pressure, intermittent, postoperative: physiological considerations (McConnell et al.), 944
rational, for carcinoma of esophagus and cardia, what is (Dillon et al.), 321
surgical, in myasthenia gravis: 27 year experience (Cohn et al.), 876
Treatment(s), surgical—Cont'd
of Wolff-Parkinson-White syndrome (Sealy and Wallace), 757
of thoracic outlet syndrome by removal of first rib and related entrapments through posterolateral approach: 22 year experience (Johnson), 536
Tricuspid annuloplasty: five and one-half years' experience with 78 patients (Boyd et al.), 344
atresia with dextroversion: not very rare combination (Cokkinos et al.), 268
valve endocarditis: prosthetic replacement (Vidne and Levy), 47
replacement: comparative experimental study with Starr-Edwards ball valve, Beall disc valve, and Kay-Shiley disc valve with muscle guard (Mori et al.), 30
valvulectomy, total, without prosthetic replacement in treatment of Pseudomonas endocarditis, consequences of (Robin et al.), 461
Tumor(s) involving chest wall, value of resection in (Burnard et al.), 530
of lung, clear cell, benign (Ozdemir et al.), 131

V

Valve(s), cardiac, allograft: view through scanning electron microscope (Hammon et al.), 352
endocarditis, tricuspid: prosthetic replacement (Vidne and Levy), 47
malformations, congenital, with particular reference to treatment of: six-year follow-up of glutaraldehyde-preserved heterografts (Carpentier et al.), 771
prosthesis, aortic, Penicillium endocarditis of (Upshaw), 428
tilting-disc, shrinkage and degradation of Delrin occluder in (Larmi and Kärkölä), 66
replacement, aortic, with fascia lata: encouraging late study (Trimble et al.), 219
in presence of Hufnagel valve in descending aorta. One-stage valve replacement and resection of Hufnagel valve: report of case (Attai et al.), 112
cardiac, in children (Berry, et al.), 705
mitral, comparative study of ball and disc prostheses in (Aris et al.), 335
tricuspid: comparative experimental study with Starr-Edwards ball valve, Beall disc valve, and Kay-Shiley disc valve with muscle guard (Mori et al.), 30
tilting-disc, Björk-Shiley, in isolated aortic valvular disease, five years' experience with (Björk et al.), 393

Valve(s)—Cont'd
tissue, long-term evaluation of (Ionescu et al.), 361
Valvular, para-, defects, discovery of (Sasse), 331 (Letter); Reply (Armstrong), 332
sub-, stenosis of aortic prostheses: complication of suture buttress technique (Weinstein et al.), 17
Valvulectomy, tricuspid, total, without prosthetic replacement in treatment of Pseudomonas endocarditis, consequences of (Robin et al.), 461
Varix, pulmonary (Perrott and Shin), 318
Veins, coronary, in treatment of myocardial ischemia, arterialization of (Gardner et al.), 273
Vena cava, superior, caused by pacemaker wire and managed with streptokinase, thrombosis of (Williams and Demos), 134
obstructed, with subcutaneous long saphenous vein graft, bypassing (Taylor et al.), 237
Venoarterial bypass, heparinless, without oxygenation, for treatment of acute cardiogenic shock, clinical experience with (Wakabayashi et al.), 687
Venous drainage, pulmonary, anomalous, total, below diaphragm: clinical presentation, hemodynamic findings, and surgical results (Higashino et al.), 711
Ventricular defibrillation with electrodes applied directly to heart, electrical dose for (Geddes et al.), 593
enlargement for underdeveloped right ventricle and associated anomalies (Rittenhouse et al.), 229
fibrillation on adequacy of regional myocardial flow, studies of effects of. I. Electrical vs. spontaneous fibrillation (Hottenrott et al.), 615
II. Effects of ventricular distention (Hottenrott and Buckberg), 626
III. Mechanisms of ischemia (Hottenrott et al.), 634
Ventricular—Cont'd
left, and unidirectional intra-aortic balloon pumping: effects on hemodynamics in canine cardiogenic shock (Bregman et al.), 677
mechanical and hemodynamic function, left, during acute rejection of orthotopically transplanted hearts in dogs, changes in (Stinson et al.), 783
septal defect, fate of pericardium utilized for closure of: postoperative ventricular septal aneurysm (Kawashima et al.), 209
heart block in repair of (Becker and Anderson), 978 (Letter); Reply (Mulder), 978
with transposition of great vessels: surgical and anatomic considerations (Idriss et al.), 732
tachycardia (Berk), 480 (Letter); Reply (Prabhu et al.), 480
Vessels, great, transposition of, with ventricular septal defect: surgical and anatomic considerations (Idriss et al.), 732
Viability, myocardial, after transient ischemia in primates (McNamara et al.), 248

W

Washing, bronchial, in lung cancer, diagnostic value of (Struve-Christensen et al.), 313
Water content, myocardial, during cardiopulmonary bypass, determinants of (Utley et al.), 8
Wolff-Parkinson-White syndrome, surgical treatment of (Sealy and Wallace), 757
Wound, gunshot, of heart with peripheral embolization: case report with review of literature (Ward and Suzuki), 440

Y

Young in developing countries, mitral stenosis in (Bhayana et al.), 126
